

Note: Please read my comment aloud to the water board.

We don't want you to consider or encourage dual conveyance methods, the Delta tunnels an alternative or preferred plan.

Instead, you need to do the thorough review and analysis required by the Delta Reform Act and such other things as a benefit-cost analysis before you claim the Tunnels or anything else to be the promoted option and preferred alternative. We want you to stop and think before you act. Why is it necessary to rush for approval for a project without Federal permits, and without a financial plan?

Sincerely,

Daniel
